May 16	Topic: Saffie (supervisor Singhal)	SJH - L303

Last Revised: September 8, 2017

ID Rounds 2017-2018

8 AM - 9 AM

** ID/IIDR Combined Rounds located at MUMC the 1st Wed of every month**

May 23	Journal Club: Kalina, Smaill	SJH - L303
May 30	Cases: Lee, Yamamura	SJH - L303
June 6	IIDR Combined: Main / IIDR	HSC 4E20
June 13	Topic: Kalina (supervisor: Mertz)	SJH - L303
June 20	Journal Club: Vincent, Shroff	
June 27	Cases: Alotaibi, Woodward	

Types of Rounds:

- 1) IIDR Combined – These will involve a combination of a clinician for 30 minutes as well as an IIDR research staff. Clinicians will be expected to prepare a 20-30 minute presentation around current burden of disease and a topical issue (diagnostics, treatment). Research staff will introduce ongoing research projects at McMaster. These topics will be assigned beforehand.
- 2) Topic: A 45-50 minute discussion around a single topic – should include a relevant literature review and clinical recommendations. Fellows will be assigned a staff supervisor in order to go through content beforehand.
- 3) Journal Club: A 20-25 minute review of a paper (should be emailed to Crystal a week beforehand). Articles between the fellow / staff should be similarly themed. Should include a critical appraisal. Expectation would be high quality journals such as CID, JID, CMAJ, JAMA, NEJM, Annals, or other high impact ID journals.
- 4) Cases: A clinical case on the ward as well as a 20-25 minute discussion around the relevant literature. Fellow and staff cases should have a similar theme.

Note: To all staff – when tagged with a resident for Topic, Journal Club, or Cases, it is the expectation to generate the topic with the trainee and review their presentation, giving feedback prior to the presentation.
